

Indiana University South Bend

Faculty Publication Files

Held in the IU South Bend Archives:

1970s to Present

(as of March 2011)

- **Note: Files contain largely faculty publications, but some files also contain photographs (or some, only photographs) as well as newspaper articles and other biographical materials.**

•

Additionally, some files are non-faculty in nature, since as: buildings on campus, notable alumni, or politicians. They are kept here for convenience's sake.

•

This collection of the IU South Bend faculty's work are the articles and audiovisual materials (DVDs, CDs) that are filed in hanging files in the IU South Bend Archives. These are additional to the books that are Faculty Publications – also held in the Archives. The books are cataloged and searchable via the Library's catalog, IUCAT.

•

**Note on Abbreviation: S.P.E.A. stands for:
School of Public and Environmental Affairs**
