Extent: 0.4 cubic feet

Abstract:

The UCET collection focuses on the University Center for Excellence in Teaching at Indiana University South Bend. This organization was developed in the late 1990's as a way to enhance and support the teaching and professional experience for Indiana University South Bend faculty. UCET's mission statement provides a map as to how they accomplish their goals:

- A broad spectrum of ideas and strategies, including innovative and alternative methods of instruction.
- Strategies and support for assessment of teaching effectiveness and student learning.
- Services such as confidential consultations, workshops, mentoring programs and conference funding.
- Access to teaching technology and training.
- Opportunities for university-wide dialogue on teaching and learning.
- Overall support for the strengthening of teaching and learning on the IU South Bend campus.

Collection and Scope Note:

Most of the items in the collection are flyers and newsletters that describe events and lectures given by UCET. Some of the items describe annual events, such as the Annual Midwest Conference on the Scholarship of Teaching and Learning or the Teaching with Technology Fair. Other events fall under an ongoing series title like the workshops under the banner of Teaching Well with Technology. Lectures occur regularly and are of varying topics of interest to faculty and staff. UCET also provides the faculty with first year orientation, resources for using course software, evaluations, and assistance with faculty promotion and tenure.

Several folders contain organizational information about the building and running of UCET. They are in the form of memos, reports and correspondence.

The collection is arranged chronologically.
